1978

depot town

NEXT REGULAR MEETING:
Thursday, July 20, 1978
7:30 pm, Eagles' Hall

FARMERS' MARKET PLANS are posted in the window of 34 E. Cross. Review them before the meeting and make your wishes known. DTA's recommendation will help determine the city's position in implementing this next Community Development Block Grant (CDBG).

C.E.T.A. TRIES AGAIN...WITH DTA: After last year's abortive CETA (Cooperative Educational Training Act) Program, DTA suggested that two workers be assigned directly to the Association to work on public projects identified by people in the neighborhood. DTA will provide weekly supervision, guidance and evaluation for this mini-project. Several workers quit after their first day, but we hope to build a team as dedicated as our usual year-round Depot Towners. They will begin with an early-morning pick-up around the entire destrict. We'll soon be as spotless as Toronto, Ontario. Suggest possible projects to your DTA officers and they'll relay them to the week's supervisor.

RIBBON PARKS BIKEWAY SYSTEM: In September 1977, Dr. Kenneth Young, professor of economics and statistics at EMU, teamed up with Robert Fox, bicycle enthusiast and life-long resident of the Ypsilanti area to develop an extensive bicycle/pedestrian transportation plan. A slide presentation and discussion of the system will be shown as part of the July 20 DTA meeting. The system includes Depot Town, Frog Island and Riverside Park.

THANKS TO DTA MERCHANTS FOR RAFFLE:

old Town Restaurant	Alibi Bar
Gwen's Closet	Weber Drug
Miller Motors	Bob Whitford
Vintage Clothes	Sunshine Crafts
River Art Works	Huron Valley TV
